

CLEANING

Maintaining your floor is as easy as 1, 2, 3.

Bona® Swedish Formula® Hardwood Floor Cleaner

Our waterbased, non-toxic cleaner is specially-designed for polyurethane finished hardwood floors. Unlike all-purpose cleaners and oil soaps, it quickly cleans tough stains and spills—from dried spaghetti sauce and red wine to scuff marks—all without dulling your floor's beautiful finish or leaving any residue. There's no mixing or diluting; Bona Hardwood Floor Cleaner is full-strength and ready to use.

1 VACUUM

Vacuum, dry mop or sweep to remove any loose dirt or grit. The best method of removing dirt and grit is vacuuming with a soft brush attachment on your vacuum. If using the Bona MicroPlus mop to dry mop, remove any loose dirt or grit after dry-mopping by rinsing with water and wringing out the mop pad prior to cleaning floor with Bona® Swedish Formula® Hardwood Floor Cleaner.

2 SPRAY

Lightly mist a 4' x 6' area of your floor or directly mist the cleaning pad with Swedish Formula® Hardwood Floor Cleaner.

3 CLEAN

Using a slightly dampened, well wrung-out Bona MicroPlus cleaning pad, thoroughly clean the floor surface using your Bona MicroPlus mop. Finish one area before moving on to the next.

When your mop pad becomes soiled, rinse with water, thoroughly wring out the pad and continue cleaning with Swedish Formula® Hardwood Floor Cleaner. When the mop pad becomes excessively soiled, launder and replace with another clean mop pad. Continued use of excessively soiled pads may cause streaking. Your Bona MicroPlus cleaning pads are reusable and washable.

Do not use any fabric softeners, dryer sheets or bleach on your MicroPlus cleaning pad as these products will diminish the natural cleaning characteristics of the microfiber.

When a spill occurs, soak up the liquid right away. Mist the area with cleaner, and wipe with your Bona MicroPlus mop or a MicroPlus Floor Cloth.
